# BIRMINGHAM TROJAN HORSE HOAX

## **Its destructive impact on the education of children in Park View (Rockwood) and Nansen Academies.**

Three years on, following the Islamophobic ‘fictional’ narrative perpetuated by Michael Gove (DfE), Peter Clarke, Ian Kershaw, and Michael Wilshaw (Ofsted), **Tahir Alam will candidly and evidentially evaluate the impact on these schools by contrasting the before, and after, intervention situations.**

### **Key questions to be addressed:**

- How have Park View and Nansen schools changed following the interventions?
- Academic performance improved or declined?
- **Successful schools or failing schools?**
- Discrimination and Islamophobia diminished or increased for Muslim children?
- **What are the implications for the future?**

**An event for every parent & who care about the education of children – all welcome.**

**Date:** Wednesday 19th July 2017
